

Tuition breakdown:

Monthly tuition rate is based on 4 weeks of class per month. Some months will give certain classes 5 weeks of class and others (like December) will only have 3. Additionally, during the final weeks approaching the performance date, each class will have at least one extended class time dress rehearsal as well as several hours on show days from call time (arrival time for cast at the theater) to the end of the performance(s). All of these extra hours "make up" for any missed weeks of class during the rest of the semester. The semester hours of each class have been carefully calculated to equal at least 16 weeks of class time (Spring) and 24 weeks (Fall). This is why tuition for the month of August is the same as the tuition for October.
